

Ashford Dunwoody Road Corridor Study Community Workshop

SHARE YOUR IDEAS FOR IMPROVING ASHFORD DUNWOODY ROAD!

The City of Brookhaven is holding a community workshop to discuss potential future improvements of the Ashford Dunwoody Road corridor and wants your input. Come learn about:

- Input received during stakeholder meetings in March;
- Results of traffic analysis; and
- A future vision for the corridor.

Then share your ideas and provide input on possible configurations and cross-sections of the roadway.

COMMUNITY WORKSHOP

Monday, September 12, 2016

4:00PM – 7:00PM

Come by any time!

Marist School – Ivy Street Center

3790 Ashford Dunwoody Road

Based on community input and data analysis, the project team has prepared a series of **potential cross-sections** for Ashford Dunwoody Road that address the movement of vehicles, pedestrians, cyclists, and potential transit riders that are consistent with the character of development along the corridor. **We want to know what you think.**

QUESTIONS?

For more information, please visit the City's website at <http://brookhavenga.gov> or contact the Project Team via email at: ADCorridorStudy@brookhavenga.gov

BACKGROUND INFORMATION

The City of Brookhaven is studying Ashford Dunwoody Road between the City Limits near I-285 and Peachtree Road. The **purpose of the study** is to develop a future vision for a multimodal corridor that:

- Serves the **needs of all users** of the corridor;
- Is **harmonious** with existing development and future growth along the corridor;
- **Minimizes negative impacts** to property owners and neighborhoods along the corridor;
- Is **cost-effective** and **implementable**; and
- Has **broad community support** from citizens, stakeholders, and other partners.

The project began with a meeting of the **Corridor Advisory Committee** in February 2016 followed by two stakeholder meetings in March to get input on potential issues and the community's vision for the corridor from City residents and corridor users. This information was used to refine a set of **goals** and a **series of potential cross-sections** for Ashford Dunwoody Road that address the movement of vehicles, pedestrians, cyclists, and potential transit riders, consistent with the character of development along the corridor. These cross-sections are being presented to the public at this **community workshop**.

Next, the project team will refine recommendations based on the input received at the workshop. The recommended **corridor vision will be presented to the City Council** this fall. For more information visit <http://brookhavenga.gov>.

Please join us 9/12/16 at Marist School
to share your ideas!

Ashford Dunwoody Road Corridor Study

COMMUNITY WORKSHOP

Monday, September 12, 2016

4:00PM – 7:00PM

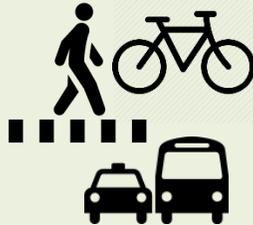

Stop by any time!

Marist School Ivy Street Center

3790 Ashford Dunwoody Road NE

Atlanta, GA 30319

If you ever walk, bike, jog, drive, or push a stroller along Ashford Dunwoody Road, we want to hear from you!

**Ashford Dunwoody Road
Corridor Study**

**Community Workshop
(Open House)**

Sept. 12, 2016 4-7pm

Come learn about potential options for the future of Ashford Dunwoody Road between the City Limits near I-285 and Peachtree Road. Hear about the results of the traffic analysis and explore potential design ideas and typical cross-sections.

The vision for Ashford Dunwoody Road is to be "...a safe, efficient, inviting, and convenient multi-modal corridor that provides all users with access to a variety of destinations in a harmonious, cost-effective manner that enables neighborhoods and businesses to thrive... People are able to move safely, efficiently along, through, and within the corridor to connect with neighborhoods, workplaces, institutions, and activity centers on foot, bike, car, bus or other mode in a way that preserves and enhances surrounding neighborhoods, green space, and the community in general."

How can we make this vision a reality?

Talk with City representatives, project team members, and your neighbors about your priorities

Learn about potential options and help shape the future of Ashford Dunwoody Road

QUESTIONS? NOT ABLE TO MAKE IT, BUT HAVE IDEAS YOU WANT TO SHARE?
